

# SCOUT

Art. No. 206302

Color: brown, leather/textile combination, waterproof and breathable with GORE-TEX® Extended, leg height 7 inch, antistatic, sole 016

Available sizes: US 5 – 14

HAIX® Climate System

HAIX® 2-Zone Lacing

206302

## Upper Material

A combination of soft and flexible leather, hydrophobic, breathable (5,0 mg/cm<sup>2</sup>/h), 1.9 – 2.1 mm thick and nylon fabric.

## Inner Lining

GORE-TEX® Extended; waterproof and very breathable. Highly abrasion-resistant lining with excellent climate comfort. Especially for flexible interchangeable indoor and outdoor use and at warmer temperatures.

## Plastic/non-woven inner sole

Moisture absorbent, anti-torsion design for outstanding stability, reducing point pressure (e.g. of stones).

## Footbed

Comfortable, damping and moisture wicking. Separate heel cup provides good cushioning and foot guidance.

## Sole

Rubber/PU walking sole with proven street/terrain tread, wear resistant and non-slip traction; optimum tread and rolling behaviour due to sporty toe and heel spring. Fuel-Oil and heat resistance and non-marking characteristics. Excellent cold isolating.

## HAIX® Climate System

The HAIX® Climate system uses the pumping movement, which permits air circulation with every step – warm air is released through the Micro-Dry lining at the top of the boot leg.

## HAIX® 2-Zone Lacing

Two Zone Lacing System enables a separate adjustment of the boot to the foot and leg area.

## HAIX® Smart Lacing

Smooth and non-pressure adjustment of the boot to the foot, quick lock and lace pocket.

## Others

Closed lacing system with eyelets permitting smooth movement, pulling strap, manually applied rubber sidewall on the front and back of the boot for a better durability, brown sole, antistatic.
