

BLACK EAGLE® SAFETY 55 MID SZ

Art. No.: 620012 men, 620013 women

NFPA 1999-2018, ASTM F2413-2018, CSA Z195-2014

HAIX® Secura Liner, HAIX® Composite Toe Cap, leg height: 5 inches, sole 019

Available sizes: Men 4 – 16 & half sizes, Women 5 – 12 & half sizes

620012/13

HAIX® Composite Toe Cap

HAIX® Vario Wide Fit System

Side Zip

Upper Material

2.0 – 2.2 mm thick waterproof, hydrophobic and breathable leather

HAIX® Secura Liner®:

Footwear inner liner which will never pull out or wrinkle up over time; lining is firmly secured and sealed along with the upper leather beneath the sole.

Inner lining

CROSSTECH® Laminate Technology; watertight and breathable. Abrasion-resistant lining with optimized climate comfort for all seasons, especially for alternating between indoor and outdoor use. Superior penetration resistance against blood and body fluids (protection against blood borne bacteria and virus). Increased chemical protection.

Insert

Comfortable, cushioning and moisture repellent. Separate heel shape for good cushioning and foot insertion. "AIRFLOW" channels. "Perfect-Fit" mark for an optimal verification of the correct shoe size.

Anti Slip

Very good grip on different terrains by profile configuration and use of a special rubber.

HAIX® Composite Toe Cap

Anatomically formed and ultralight protective toe cap made of fiber-reinforced plastic to meet the highest safety requirements.

Sole

Lightweight and Athletic sole construction with a high level of slip and abrasion resistance, offering improved heel to toe control in all weather conditions. The lightweight PU cushioned sole provides optimum comfort as well as excellent thermal insulation. The non-marking rubber outsole is also resistant to heat, oil and gasoline. Electrical hazard resistant to 18 kV acc. to ASTM F2413-18 and CSA Z195-2014

HAIX® Vario Wide Fit System

For a more individualized fit, boot fit can be adjusted with an alternate insole. Blue – Narrower fit (thickest), Red – Moderate fit (average thickness), Yellow – Wider fit (thinnest). If boots feel slightly wide, HAIX® recommends using the next thickest insole; or, if slightly narrow, to use the next thinnest insole.

HAIX® Protective sole

Flexible, lightweight and completely metal free puncture resistant midsole.

Sun Reflect

Reducing heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the feet cool.

HAIX® Climate System

The HAIX Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

Extended Wear Program

Out of warranty footwear can be refurbished with original factory parts through an extended wear package. This package includes any necessary replacement or repair of stitching, insoles, and retreading of soles. Footwear will be cleaned and deodorized. HAIX footwear owners also have the option of a sole retread only or a toe cap replacement only.

Others

Lightweight, metal-free, Electrical Hazard Resistant Footwear (EH) / Electrical Shock Protective Footwear (Ω).
