

FIRE FLASH® XTREME

Art. No. 506005 men, 506006 women

NFPA 1971-2018, NFPA 1992-2018, NFPA 1951-2013, NFPA 1977-2016, CSA Z195-2014, ASTM F2413-2011

HAIX® Secura Liner, HAIX® Sun Reflect Leather, HAIX® Climate System, HAIX® MSL System, HAIX® Lacing System, Leg height: 10 inches

Available sizes: Men 5 – 16 & half sizes, Women 5 – 12 & half sizes

Available widths: Narrow, Medium, Wide

HAIX® Lacing System

HAIX® HD Cap System

HAIX® Secura Liner®:

Footwear inner liner which will never pull out or wrinkle up over time; lining is firmly secured and sealed along with the upper leather beneath the sole.

HAIX® Sun Reflect Leather:

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

HAIX® Climate System:

Permits air circulation with every step – moist air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX® MSL System:

Micro Soft Light: PU foam injected throughout the sole for greater shock absorption and cold/heat insulation; extremely low weight.

HAIX® Lacing System:

Optimal fit of the boot to the foot thanks to the laces. Opening and closing is implemented with the zipper for rapid insertion. Simple two-zone lacing, so the upper lacing can be adjusted independently of the lower lacing.

Cut Protection

Para-aramid cut protection.

HAIX® High Durability Cap System:

Anatomically formed and well-padded steel protective toe cap to meet ASTM 2413-2011 and CSA Z195-2014 standard for personal protection – protective footwear.

Protective Flexible Midsole:

Flexible protective stainless steel, cast into the sole, to meet ASTM F2413-2011 and CSA Z195-2014 standard for personal protection – protective footwear.

Upper Material:

Waterproof leather, hydrophobic and breathable.

Moisture Barrier:

CROSSTECH® footwear, 4 layers, waterproof and breathable, bacteria and chemical resistant, bloodborne pathogen resistant. Highly abrasion resistant and softly padded with breathable foam.

Sole:

Nitrile rubber shell sole, oil and fuel resistant, self-cleaning tread, high voltage resistant 14 KV.

Insole:

Anatomically formed, quick change, machine washable insert with excellent moisture absorption and quick drying qualities.

Footbed:

Anatomically formed TEXON (fleece) absorbs moisture and supports ankle.

Other:

Newly patented easy-run lace/zip system, tre-fast-fix unit to allow independent lacing, pull on loop at the back, NOMEX® laces, reflective strips, profiles rubber toe cap, heel flex zone and flex zone construction around the tongue.

Extended Wear Program:

Out of warranty footwear can be refurbished with original factory parts through an extended wear package. This package includes any necessary replacement or repair of stitching, profiled rubber toe caps, insoles, and retreading of soles. Footwear will be cleaned and deodorized. HAIX footwear owners also have the option of a sole retread only or a toe cap replacement only.
